## Chapter 1 Introduction

When the new version of HikCentral Professional is released, you can upgrade your HikCentral Professional to the latest version with the installation package.

---

 **Caution**

After upgrading with the installation package, you need to activate your software again with the original Licenses you purchased. As a result, please make sure you have properly saved your License information (activation codes) before starting.

---

## Chapter 2 Flow Chart

Figure 2-1 Flow Chart

## Chapter 3 Activation Code Backup

Since after upgrading your HikCentral Professional with the latest installation package, your HikCentral Professional will be deactivated automatically, you need to activate it again with your original activation code purchased before.

As a result, you **MUST** properly keep your activation codes and make sure they are available after upgrading.

## Chapter 4 System Backup

Before starting the upgrade, it is recommended to back the system.

To back up the system you will need to log in to the Web Client with an administrator account.

1. On the HikCentral Web Client, click **“Back Up and Restore System Data”**.

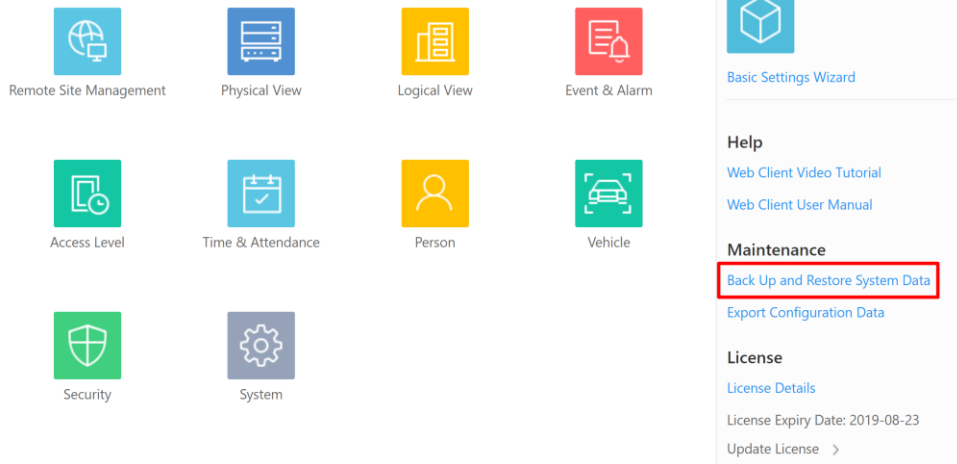

Figure 4-1

2. Select all the data types to back up and click **“Back Up Now”**.

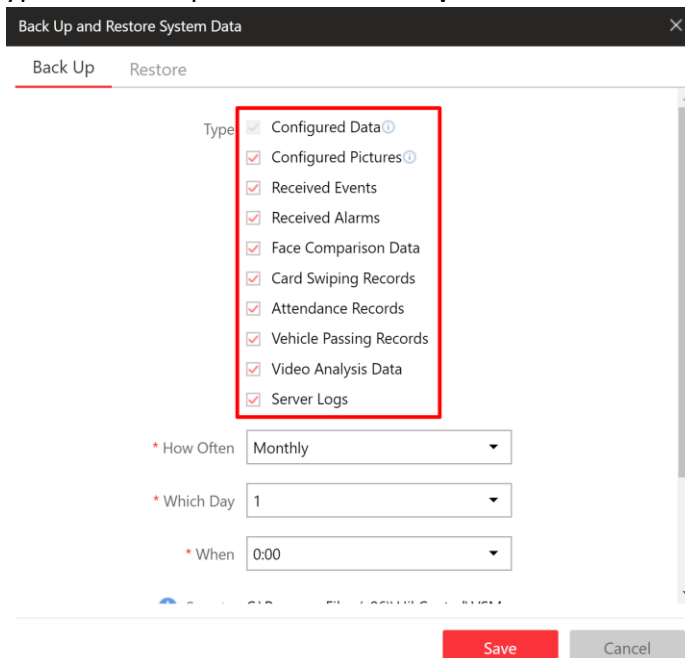

Figure 4-2

## How to upgrade HikCentral Professional by installing latest package

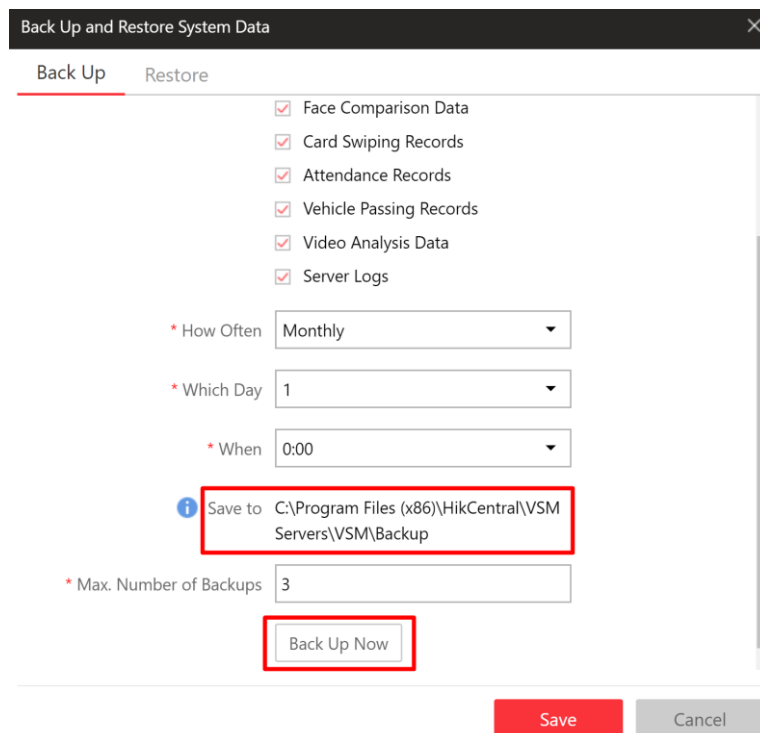

Figure 4-3

3. After the backup process is finished, go to the path in the picture above and **copy the folder to a safe location.**
4. For HikCentral deployments using access control, Person information will need to be exported manually. Export the Person information on the **Web Client - Person – Person List.**

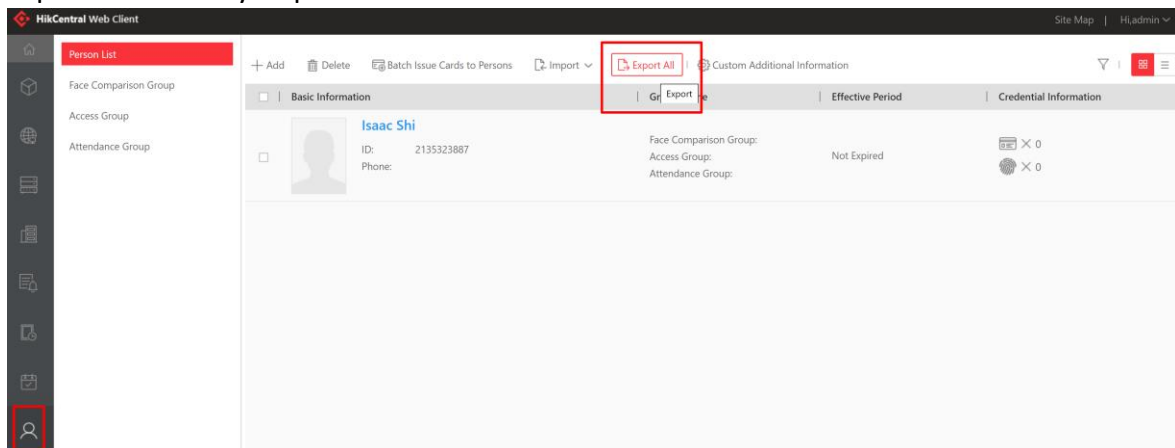

Figure 4-4

For more information, please refer to the user manual

5. Open the HikCentral Service Manager and stop all services, **then close it.**

## How to upgrade HikCentral Professional by installing latest package

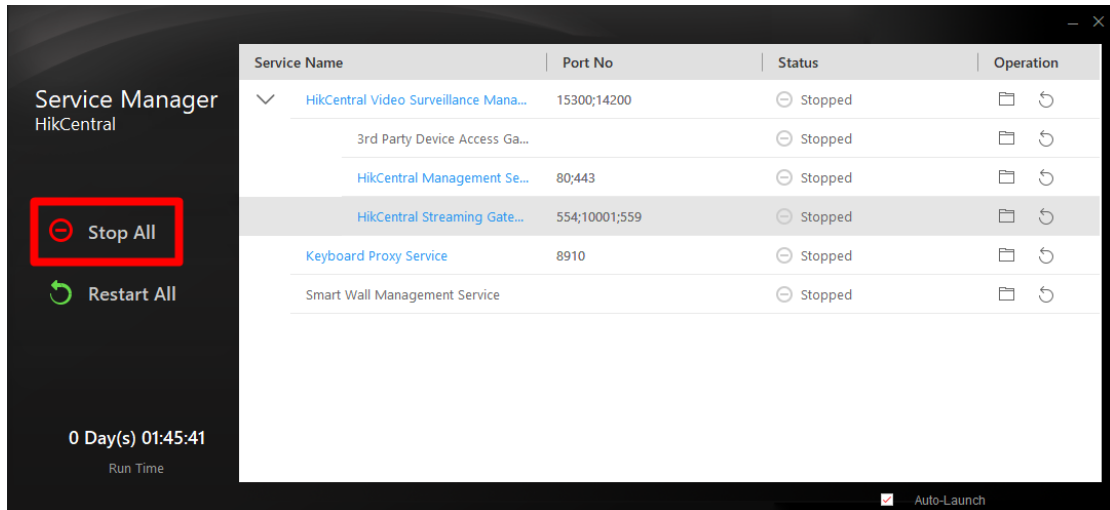

Figure 4-5

6. Go to the HikCentral installation path `\HikCentral\VSM Servers\PostgreSQL` and make a copy the **“data”** folder to another safe path.
7. Run the HikCentral Service Manager and make sure the services are back running.

## Chapter 5 Get Installation Package

You can get the latest installation package from [here](#).

## Chapter 6 Install Package

Install the latest installation package on the HikCentral server to upgrade to the latest version. The system's activated licenses will be cleared after upgrading. Please save your licenses before installation.

1. Copy the installation package to the server running the HikCentral Professional service.
2. Run the installation package as an administrator.
3. Follow the instructions of the installer to upgrade the server.

 While running the installer a prompt may appear “close the beagent.exe” which is referring to HikCentral Services Manager “HikCentral Watch Dog” as seen in figure 6-1.

Figure 6-1 Installer Message

## Chapter 7 Reactivate System

After upgrading your software to the latest version with the latest installation package, you need to activate your HikCentral Professional again with your original license (activation codes). After activation, your system will recover to normal status.

We provide online activation and offline activation and you can choose according to the network status of your SYS server.

### 7.1 Activate License - Online

For HikCentral servers with internet access, the server can be activated in online mode.

#### Steps

1. Log in to HikCentral Professional via the Web Client.
2. Click **Online Activation** in the License area to open the License configuration window.

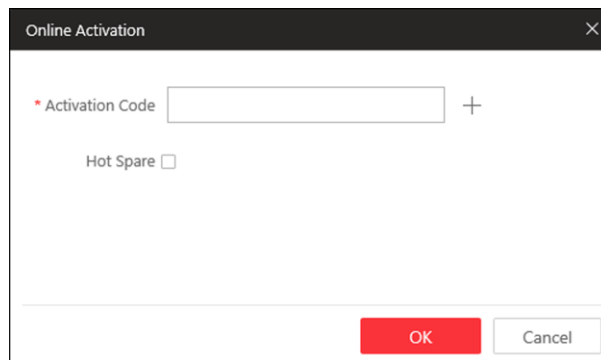

Figure 7-1 Online Activation

3. Enter the activation code.

---

#### Note

- If you have purchased more than one license, you can click + and enter other activation codes.
  - A maximum of 110 licenses are allowed in one system.
- 

4. Optional: Set the **Hot Spare** switch to **ON** and input the required parameters if you want to build a hot spare system.

---

#### Note

- You must select Hot Spare mode when you install the system.
  - For how to build the hot spare system, please contact our technical support engineers.
- 

5. Click **OK** and the License Agreement dialog opens.

---

## How to upgrade HikCentral Professional by installing latest package

---

6. Read the License Agreement.

- If you accept the terms of the License Agreement, check **I accept the terms of the agreement** and click **OK** to continue.
  - If you do not accept the agreement, click **Cancel** to cancel the activation.
- The activation will start.

## 7.2 Activate License - Offline

For HikCentral servers with no internet access, the server must be activated in offline mode.

### Steps

1. Log in to HikCentral Professional via the Web Client.
2. Click **Export the license request file** in the License area.

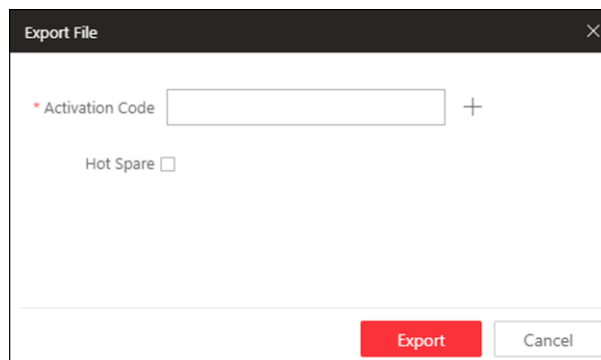

**Figure 7-2 Export Request File**

3. Enter the activation code.

---

### Note

- If you have purchased more than one License, you can click **+** and enter other activation codes.
- A maximum of 110 licenses are allowed in one system.

**Figure 7-3 Export File**

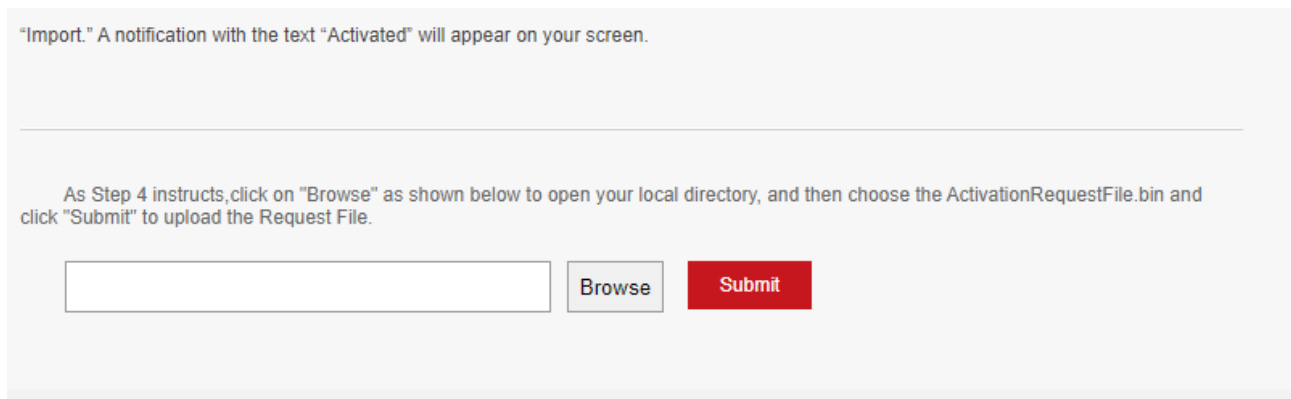

4. Optional: Check **Hot Spare** and enter the required parameters if you want to build a hot spare system.

## How to upgrade HikCentral Professional by installing latest package

### Note

- The switch will be displayed if you select **Hot Spare** mode when installing the system.
- For how to build the hot spare system, please contact Hikvision's technical support engineers.

5. Click **Export**.
6. In the pop-up License Agreement window, check **I accept the terms of the agreement** and click **OK**.  
A request file named "ActivationRequestFile.bin" will be downloaded. Save the file to the correct directory or the removable storage medium (e.g., USB flash disk).
7. Copy the request file to a machine with internet access for activation.
8. On the machine with internet access, enter the following website:  
**<https://license.hikvision.com:8443/#/active>**.
9. Scroll down and Click *Browse* and then select the request file downloaded in Step 6.

**Figure 7-4 Select Request File**

10. Click **Submit**.  
A response file named "ActivationResponseFile.bin" will be downloaded. Save the response file to the proper directory or the removable storage medium (e.g., USB flash disk).
11. Copy the response file to a machine with access to the HikCentral Professional's Web Client.
12. In the License area, click **Import the activation file**.

**Figure 7-5 Import Respond File**

13. Click  and select the response file downloaded in Step 10.
14. Click **Import**.
