

TandemVu PTZ Cameras with ColorVu

Big Picture and Details in One View

TandemVu PTZ cameras feature Hikvision's next-generation technology, integrating a bullet camera and a PTZ camera in one unit. This exciting new type of camera provides big picture and small details in "tandem", inspiring its name. The overall view remains even during the pan, tilt, and zoom maneuvers, so that users will see everything and miss nothing at any given instant, getting unparalleled situational awareness from the moment you set the camera up.

The newly released models feature ColorVu Technology, which provides vivid colorful imaging, even in darkness.

✗ SHORTCOMINGS OF CONVENTIONAL PTZs
