Network Camera Firmware
Version: V5.6.11_200901
Release Notes

Reason of Upgrade

Upgrade for supporting new features and better performance.

New features

1. Now can enable 'Remove Duplicated License Plates' and set the interval time of it.

2. The extra time delay of Alarm Output has been removed (previously was 5s).

3. Support manual gain adjustment under automatic mode of day and night switching (previously was not supported while in auto mode).

4. Now support optional Detection mode of Vehicle Priority and License Plate & Vehicle under Entrance/Exit mode.

5. Now the device supports Hikvision security guidelines 2.0.

6. "When the HLC is on, Day & Night switch can't work normally" has been fixed.

7. Now the device will not easily lose focus after the Day & Night switch.

8. Fix the problem that Road Traffic – Picture - FTP Picture Name – Custom – Capture Time is firmly selected.

FTP Picture Name

○ Default   ◉ Custom

☑ Alarm Type   ☐ Camera Name   ☐ Capture Time   ☑ Plate No.
