Sent From:

- Click on SMTP Settings

- This is the "**Sent From**" email account that will be used to send the notifications. All information must be accurate.

- Enter the email **address** of the sending account.

- Enter the account's **user name**

- Enter the account's **password**

- Enter the account's out**going SMTP server** address.

- Enter the outgoing mail **port number.**

Note: the default port is usually 25, but may have been changed.
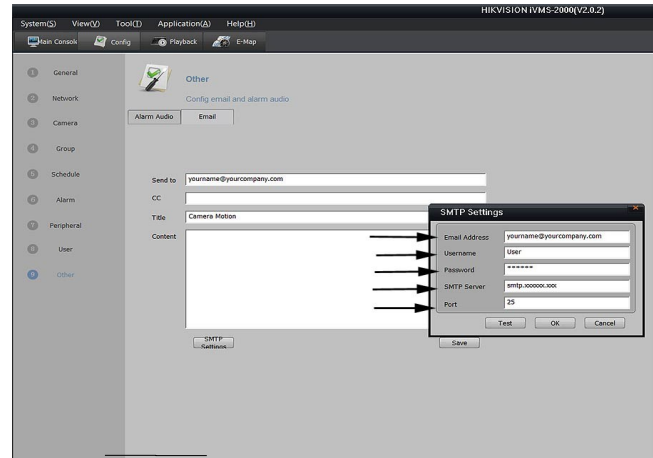

Click on the Test button to confirm your settings. If the test is not successful, recheck all your settings, in particular the port number.

When the test is successful, click **OK**, then **OK** again on the SMTP Settings window, then **Save**.
